

INSTRUCTIONS

PLANT FERTILIZER FLORAVITA

VOLUME

200 ml

ABOUT THE ITEM

Our carefully developed fertilizer contains high levels of key nutrients to stimulate flowering and fruit growth.

Floravita fertilizer is suitable for a wide range of plants, including flowering plants, herbs, vegetables, ornamentals and more. From your household helpers on the windowsill to your precious roses in the garden.

HOW TO USE

Dissolve 1 tablespoon of Floravita in 0.5 l of water. The product does not dissolve completely, so allow at least 2 hours for it to dissolve as much as possible. Stir several times in between. The water turns light brown but some of the undissolved product remains at the bottom. Stir well and pour the contents into the soil. The fertilizer can be applied at each watering.

INGREDIENTS

- organic base min 40%
- organic N 3%
- organic P2O5 2%
