

INSTRUCTIONS

MEGA CLEANER STUBBORN DIRT REMOVER

VOLUME

500 ml

ABOUT THE ITEM

The product removes stubborn dirt and the remains of metal particles that eat into the paint of the vehicle (rust from the air, particles from foundries, smog particles...). The formula is strong enough to remove stubborn stains, but still gentle enough on materials so you won't ruin them.

HOW TO USE

- The surface has to be cold in touch before use.
- Clean the surface to remove any large particles of dirt.
- Apply Mega Cleaner to the surface and allow the cleaning solution to work for several minutes.
- You can use a brush or sponge to clean stubborn dirt.
- Rinse surface with water. Do not allow the product to dry on the surface.
- The product has no color to begin with but becomes purple while reacting with dirt. The cleaning process should be repeated until the purple color no longer appears.

WARNINGS

- Keep out of the reach of children and animals.
- May cause an allergic skin reaction.
- Avoid breathing spray.
- Wear protective gloves.
- IF ON SKIN: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice/attention.
- Dispose of contents/container in accordance with national regulations.
