

INSTRUCTIONS

SCRATCH REMOVER NANO POLISH

VOLUME

30 ml

ABOUT THE ITEM

Nano polish is designed for polishing very shallow, thin, and surface-level scratches on vehicles.

Note: The product is not effective on deep scratches and damage that reaches the base layer of the paint. For repairing deeper scratches and paint damage, we recommend consulting a professional auto body technician.

HOW TO USE

- First, thoroughly clean the area of the vehicle where you want to remove surface scratches.
- Apply a small amount of polish – about the size of a pea – onto the sponge.
- Spread the polish over the scratch and buff until the scratch disappears.
- Wipe the surface with a soft cloth.
- If the scratch does not disappear, it is likely too deep. In this case, consult a professional auto body technician.

WARNINGS

- The product works only on very thin surface scratches. Using the product on deep scratches can further damage the varnish.
- After opening, store in a dry and cool place.
- Keep out of the reach of children and animals.
- DANGEROUS!

- Harmful if swallowed.
- Causes skin irritation.
- Causes severe eye irritation.
- If eye irritation persists: seek medical attention/care.
- IN CONTACT WITH EYES: Rinse gently with water for a few minutes. Remove contact lenses if you have them and if you can do so without difficulty. Continue rinsing.
- Remove contaminated clothing.

- If skin irritation occurs: seek medical attention/care.
- IN CONTACT WITH SKIN: Wash with plenty of water.
- Rinse mouth.
- IN CASES OF INJURY: If you feel unwell, call the Emergency Centre.
- Wear protective gloves and eye protection.
- Do not eat, drink or smoke while using this product.
- Wash hands thoroughly after use.
- Do not eat/ingest the product. In case of contact with mucous membranes or ingestion, rinse with water and consult a doctor immediately.
- Dispose of contents/container in accordance with national regulations.
