

## INSTRUCTIONS

### PAINTSTRIPPER™ METAL PAINT REMOVAL SPRAY

#### VOLUME

450 ml

#### ABOUT THE ITEM

It is used to clean old paint from the surfaces of agricultural machinery, car parts, bicycles, pipes and other household items. It cleans oil-based, epoxy, acrylic, lacquer, enamel and water-based paints.

- ➔ Quickly removes paint from any surface
- ➔ Penetrates even the oldest paints
- ➔ Effective and easy to apply

#### HOW TO USE

Shake well before use and spray onto desired surface. The chemical effect will take place within 3 minutes and the surface will become damp after which bubbles will appear and finally harden and begin to peel off the object. You can clean with an air blast or clean water. For surfaces where the paint has been applied in more than one coat, repeat the process as many times as necessary and may be repeated with a scraper.

#### WARNINGS
