

## INSTRUCTIONS

### RUST PAINT RUST PAINT

#### VOLUME

300 ml

#### ABOUT THE ITEM

Rust Paint is a multifunctional product that stabilises the surface and provides corrosion protection in one step. It is used wherever rust and corrosion threaten the appearance, function or future strength of iron and steel objects, machinery, equipment, fences, iron railings and wrought iron products. The coated surface becomes water-repellent. It can be applied to rusted or non rusted surfaces.

#### HOW TO USE

- Mechanically remove detached parts and layers of old paint from metal surfaces.
- Any other dirt (e.g. grease, oils, dust, soot, etc.) should also be thoroughly removed from the surface.
- Mix the product well before use.
- It can be applied by brush, roller, spray and possibly by dipping.
- Drying time is 2–5 hours.

#### WARNINGS

- Keep out of the reach of children and animals.
- Do not eat/ingest the product. In case of ingestion, immediately seek medical attention.
- Contains 1,2-benzisothiazol-3(2H)-one, a reaction mixture of 5-chloro-2-methyl-2H-isothiazol-3-one and 2-methyl-2H-isothiazol-3-one (3:1). May cause an allergic reaction.
- Dispose of contents/container in accordance with national regulations.
- **Best before: 2 years in closed original packaging.**
