CHANGING THE GRAFTING BLADE

- To change the grafting blade, use the included tools and remove the screw holding the grafting blade in place (pictured below).

- Then remove the grafting blade from the slot and insert a new one from the storage pouch.
- Slide it into the slot and position it above the pruning blade in such a way that the screw goes through the holes in both blades and holds them together.
- Tighten the screw.
- The new grafting blade is now ready for use.

WARNINGS

- Wear safety gloves when using the tool.
- Do not put your fingers anywhere near the sharp blades when using the tool. This may result in serious injury.

- Store out of children's reach.
- Do not modify the tool in any way.
