HOW TO USE

- Place the pump onto a flat surface. Preferably fasten it to the surface with a piece of double-sided tape.
- Screw the hose attachments onto the inlet and outlet of the pump.
- Before each use, lubricate the pump's inside with a few drops of lubricating oil.
- Attach the hoses (not included) onto the pump, use the metal ties to secure the connection if needed. Check the pump to see which side is the inlet and which side is the outlet. The pump only works in one direction.
- The inlet hose should not exceed 2.7 m
- Use an electric drill to activate the pump. It spins in the clockwise direction as indicated on the casing.

MAINTENANCE

- When pumping liquids with solids or abrasive particles, use a strainer on the hose in order to prevent clogging the pump.
- It is recommended that the pump is mounted to a surface during operation.
- Only operate in temperatures between 5–49°C.
- Store out of reach of children and animals.
- Flush with clean water after each use.
- Lubricate before each use.
- Do not run dry, the device needs fluids for lubrication.

WARNINGS

- Do not disassemble or modify in any way.
- Do not stand in the water while pumping.
- Keep all power cords away from water and other fluids while using the pump.
- Always stand on dry ground when using the pump.
- Use safety equipment while using the pump (mask, gloves, eye protection, ear protection).
- Do not use with flammable substances under any circumstance.
- Follow the safety precautions of your power tool when using the pump.
